Talent Management
The Talent Management service will help you effectively and proactively evaluate, develop and retain talent. It includes Performance Management to continuously track performance, receive peer-to-peer feedback and support dynamic development of talent. It also includes Talent Review: to support the retention of top talent and foster internal mobility.

Talent Management for Professional Leaders & Above
The full Talent Management service for Professional Leaders and above (HODs and above) will help you effectively and proactively evaluate, develop and retain top talent. It includes Performance Management to continuously track performance through feedback and regular check points and manage development plan. It also includes Talent Review: to support the retention of top talent and foster internal mobility.

Feedback for Development
Aligning with our Heartist® culture, the Feedback for Development service enables employees to receive and give peer-to-peer feedback on their skills and competencies, to enhance self awareness, and identify relevant learning and development activities.
